Monday, September 14, 2020  
November 16, 2020  
February 8, 2021  
April 19, 2021

---

The District Accountability Committee adopted the following charge for the school year 2020-2021. The charge is simple in format but comprehensive in nature.

- The District Accountability Committee will focus on connecting our community and parents with our schools and support academic growth by annually reviewing progress towards curriculum development and implementation.
  - The area of focus will be to determine various ways to help provide more clear information and to promote open communication and information sharing between parents, students, and the community. This focus will help create better relationships and generate more student motivation.
  - Communicate success stories not only with families and district administration, but also with the local community.
-
